MOUNTING OF THE DOOR FRAME AT HKD 7

Delivery content

Mounting frame HKD 7:
Art.Nr..: D016070-01

Package with screws:
Art.Nr.: 01998

Montage

Important note:
Adhesive tape can damage the surface! Keep adhesive tape on the surface only as long as necessary for operation. After moistening the adhesive tape remove it. We recommend special crepe tape Art.Nr. 02576.

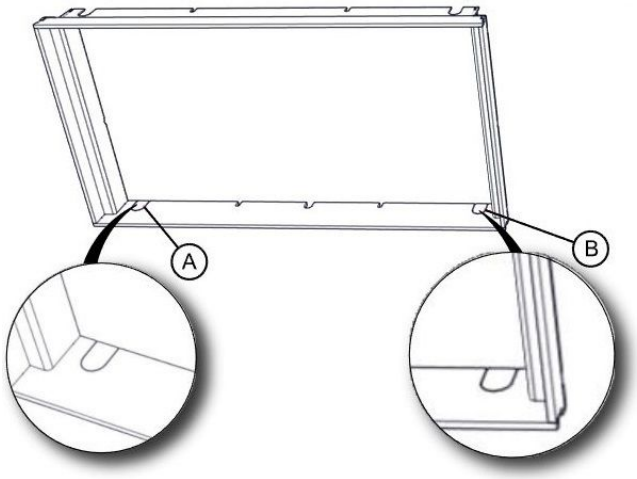

In case of paint damage of the frame, you can use the repair paint Art.Nr. 02015. For cleaning stainless steel surfaces we recommend cleaning and maintenance oil Art.Nr. 01185.

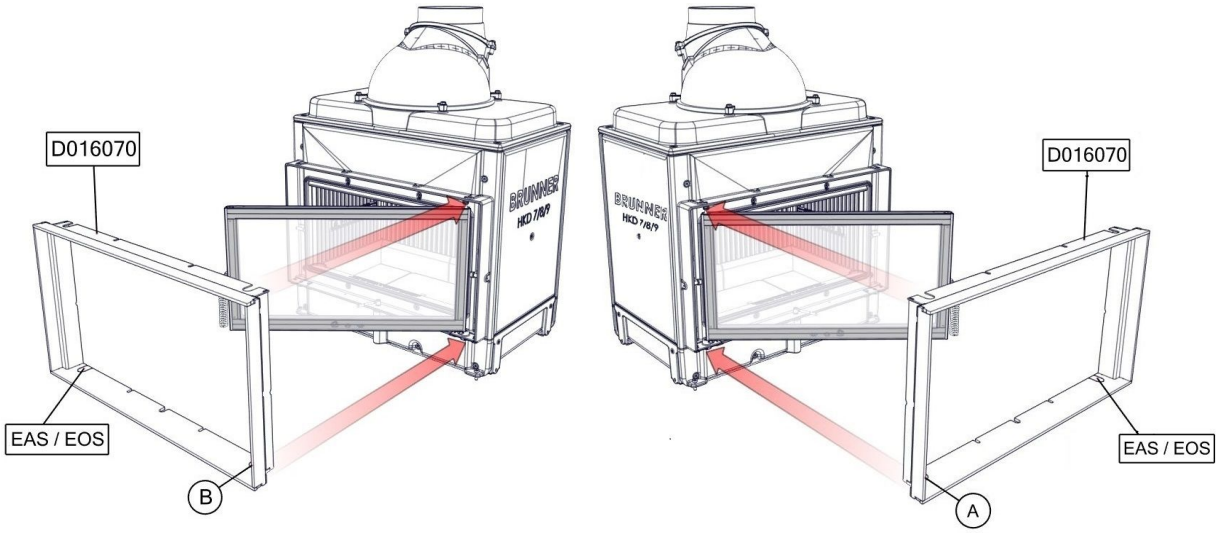

The frame must be mounted after the tiled stove assembly has been completed.

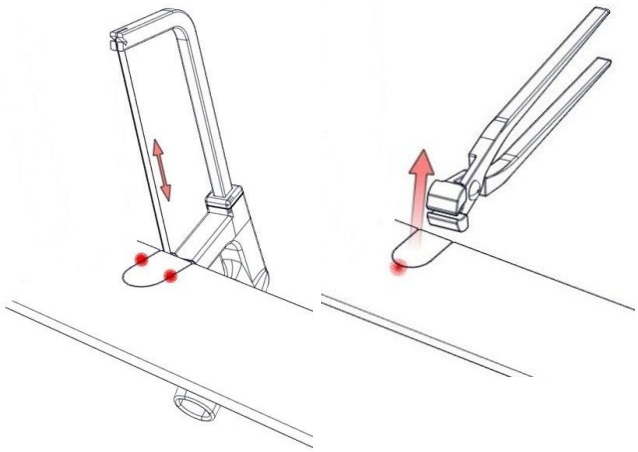

To avoid stains resulting from touching the frame with unclean fingers, remember to wear cotton gloves.

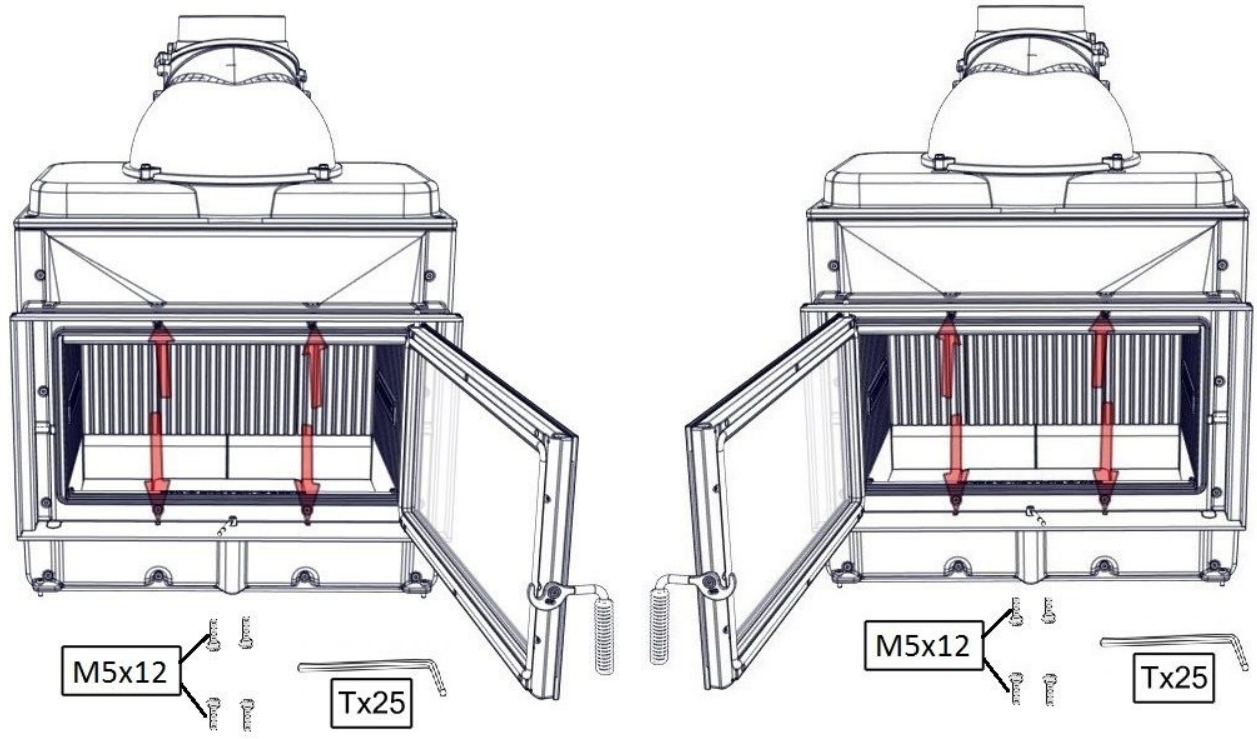

Please cut out carefully the pre-cut recess for the door hinge. For EAS / EOS, also remove the second recess for the door contact switch.

 © 2017 Brunner GmbH

CAUTION: Due to frequent temperature changes close to the frame, the screws might get loose after some time. Please check the fastening of the screws on a regular basis and tighten them if necessary.
